"The GENUINE KAWANISHI leather", world's softest and finest cowhide leather. Antoku Corporation (Glove, cattle leather for clothing, leather for furniture, leather for lady's handbag) We were established in 1951 in "KAWANISHI" area, Japan, where is well-known as the birthplace of "KAWANISHI leather", which is softest and finest cowhide leather in the world. We have been producing them for gloves and garments to global market since then. We are very proud of and very pleased with producing the best quality "KAWANISHI leather" and selling our products to the world. "KAWANISHI leather (Drum dyed leather)" is 'the real leather of leather' as well as 'vegetable tanning leather'. No one could copy it and no one could compete with our leather. It is just natural but it is unique. "The best leather is the genuine leather," once you touch it, you feel and you love it.

**WADA SHO-KAI Co., Ltd.****Company profile**

For this exhibition, we planned our product lineup by focusing on "pigskin leather," representative material of Japan. Pigskin can be said to be the only leather with which we can realize "perfect Japan-made" because thanks to the large amount of pork consumption in Japan, we can conduct all processes from procurement of raw hides to manufacturing of leather within the country without counting on import. Lightness, durability against friction and tear and three pores in triangle can be mentioned as the features of pigskin leather. Please be sure to visit us and see such Japan-made leather.
